The Wealth of Mysore.

FOUNDED 1914.

THURSDAY, 15TH JULY, 1926.

THE SCRUTINY OF EXPENDITURE.

The expenditure in many departments of the State requires investigation and scrutiny. If carefully examined, a lot of unnecessary expenditure, wastage and leakage can be prevented. We shall give a typical instance of this kind of expenditure.

The Epidemic Diseases Hospital, Mysore, has arrangements not only for the treatment of epidemic diseases, but also for that of lepers and incurables. The estimate goes to show a provision for a number of 100 beds whereas the number of patients is very much less. An expenditure of Rs. 20,028 is shown, of which $\frac{1}{3}$ is to be borne by the Municipality. The Hospital wants the Municipality to pay one-third of Rs. 20,000, whereas the Municipality pays only Rs. 3,000 and states that that amount is all that they can give. The real secret seems to be that the Municipality is not satisfied that Rs. 20,000 are wanted for the maintenance of the Hospital. There may be wastages and leakages in the Hospital. The Government would do well to send an independent auditor, to audit the accounts wherever doubts of this kind arise. The Government should see that proper arrangements are made for the surprise visits of a Board of Independent Auditors into every office in the State. Unless and until, such arrangements are made, wastages and leakages can never be prevented. In addition to figure audit there should also be an audit of facts. Sometimes figures are given for works which actually do not exist. Unless there is a wholesome fear, the best of men drift into temptations, which, they find themselves unable or unequal to resist. It is the duty of Government to take such precautions as are best calculated to stem the tide of demoralisation. The absence of such arrangements operate as a premium for corruption, embezzlement and the thousand and one wrongs that we see in most of the offices of the Public Service. Many a poor official and servant finds it impossible to make both ends meet with the salary and allowance that he gets. Is it not a dire sin to expose such officials to temptations and then punish them? Those who are negligent in this matter should be exemplarily punished. It is hoped that the attention of H. H. the Maharaja and the present Dewan will be given to the practical solution of this problem.

Subject:- CONTENTION OF THE MYSORE CITY MUNICIPAL COUNCIL ABOUT THE EXTENT OF THEIR LIABILITY IN THE MATTER OF FINANCING THE TOTAL COST OF MAINTAINING THE EPIDEMIC DISEASES HOSPITAL AT MYSORE.

1) In G.O.No.G.24949-52/Med.35-19-18 dated 24th June 1921 sanctionewas accorded to the revision of the establishment and other charges of the E.D.Hospital at Mysore and Bangalore and the contribution to be paid in this behalf by the Bangalore City Municipal Council and the Mysore City Municipa Council was fixed at one-half and one-third respectively of the total cost in each case.

2) The charges for each of the Hospitals were estimated to amount to Rs.20,028 per annum and the amount payable accordingly for each year by the Mysore City Municipal Council was estimated to be about Rs.6,676/- per annum. The cost of the Establishment of the Institution for the year 1924-25 as per figures furnished by the Comptroller amounted to about Rs.7,600/- for establishment charges (which wa after keeping vacant,appointments of some menial - staff) and to this about Rs.6,500 was added for contingent charges on the basis of the figures furnished by the Comptroller for the year 1922-23. One third of this total expenditure amounted to Rs.4,700 per annum.

3) But the Mysore City Municipal Council who are ~~only~~ willing to pay only Rs.3,000/- per annum as a fixed contribution had not paid any amount since

NOTE—Contn.Sheet

Serial No.

1922-23 but they had provided in their Budget for 1925-26 for payment of a sum of Rs.12,000/- only, to the Institution for four years from 1922-23 to 1925-26 both inclusive.

S 4) In their proceedings No.L.3360-2/M1.23-23-19 dated 7-11-25 Government directed that the above sum of Rs.12,000/- be adjusted immediately, towards the amount due by the Municipal Council on account of the cost of the maintenande of the Hospital.

5) It was also further stated in the above G.O. that separate orders would issue in regard to the contention of Municipal Council about the extent of their liability in the matter.

P 6) With reference to the above orders a communication was further addressed to the President, Mysore City Municipal Council furnishing him information about the correct situation of the matter and requesting him to place the facts before the Municipal Council for a reconsideration of their views so that they would see their way to pay the proportion fixed in the Government order of 24th June 1921.

Z 7) In reply to the above communication the President stated as follows :-

pw of I. 1) The scale of expenditure in the Hospital is disproportionate to the number of patients treated there and that as many of the patients are incurables the proportion of Rs.3,000/- already agreed to by the Municipaloty is sufficiently high and need not be enhanced.

Serial No.

(2) The Municipal Council urge the need for reduction of establishment and the formation of a separate ward for treatment of incurables.

8) The above views of the Municipal Council were forwarded to the Senior Surgeon with the Government of Mysore for favour of furnishing his opinion in the matter. The Senior Surgeon has furnished his reply in his letter dated 17th September 1926 clearly supporting his own conclusion in the matter, that the contention of the Municipal Council that they cannot be called upon to pay more than Rs.3,000/- per annum as their contribution appears to be untenable. But he has suggested that the only relief that could be reasonably claimed by the Municipal Council is that, the contribution payable by them be fixed at one-third of the actual expenditure incurred during each year, instead of one-third of the scale of expenditur sanctioned in the G.O. of 1921.

9) An Article also appeared on the scrutiny of expenditure in the E.D.Hospital at Mysore, in the issue of 15th July 1926 of the Wealth of Mysore and the Senior Surgeon to whom this Article was forwarded for opinion has in his letter dated 29th November 1926 stated that the views already furnished by him in the matter may be considered to refer to the points mentioned ir the Article also and that as regards having a separate section for incurables in the Hospital, provision therefor has been included in the scheme for a New E.D.Hospital, plans for which are under preparation.

25 The Senior Surgeon's letter of 17/9/26 explains the circumstances of his recommendation to fix the Municipal Contribution at 1/3 of the actual cost for which you may perhaps be approached & the Municipal Council to assist the Hospital on this basis

Dr Rey) 27/9/27

18/1

26 This file relates to the contention of the municipal of mysore city that they cannot pay more than Rs 3000 as their annual contribution towards the cost of the Epidemic Diseases Hospital in that city. The GO dated 24.6.1921 fixed their contribution at 1/3 the total cost which was estimated at Rs 20,026. providing for the treatment — as is evident from the submission note in file 35-19 of 1919-20 leading to the GO — of 60 patients

Flag X

Flag K

27 The municipal council have all along contended that the scale of establishment and expenditure is much in excess of requirements and the enclosures to the President's letter dated 11.8.26 (PuDI) show that the daily average of in-patients for the years 1921, 22, 23 and 24 was 34.91, 22.35 19.35 and 25.99 respectively. The Medical Dept has also recognised the existance of superfluous establishment and has steadily reduced the annual cost from Rs 17,298 in 1922-23 to Rs 12,290 in 1925-26 and the Senior Surgeon in his letter dt 17.9.26 (PuDII) admits that further reduction in Establishment is possible and the total annual cost can be brought down to Rs 11500.

NOTE—Contn. Sheet

Serial No.

DEWAN'S OFFICE.
Received on
17. JAN. 1927
Reg. No. 5159

28 As the annual cost can accordingly be reduced to Rs 11500 the contribution of the municipalities will only amount to Rs 3633. ie only Rs 833 in excess of what they are willing to pay. When the question of the contribution of local bodies towards the expenses of these hospitals was originally considered it was suggested that the D^t Boards may be called upon to contribute a small part of the cost as the rural part of the District in which the Hospital is situated will enjoy a preferential advantage by the location of the hospital in that Chief^s. This proposal was later on given up. Perhaps the D^t Board Mysore may now be asked if they will pay Rs 833 towards the cost of the Mysore hospital and the contribution of the Mysore municipal council fixed, as desired by them, at Rs 3000 per annum

The President,
City Ml. Council,
MYSORE.

S i r,

I am directed to invite refer... to para 4 of the G.O. No. P.3360-62/M 23-23-19, dated the 7th November 1925 stating that separate orders will issue in regard to the contention of the Mysore City Municipal Council about the extent of their liability in the matter of their contribution towards the maintenance charges of the Epidemic Diseases Hospital at Mysore, and to state as follows:-

Under Government Order No.G.2494 -5 Med.35-19-18, dated the 26th June 1921 which was to come into force from 1st July 1921, the contribution payable by the Municipal Council is one-third of Rs. 20,028 as per details noted in the margin. The establishment charges under this amounted to Rs.910 2/3 per mensem, but in the Un-official Note of the Comptroller dated the 12th January 1924 the establishment charges were noted at Rs. 810-8-0. A statement showing how the establishments stood in each case is enclosed. The Comptroller claimed a sum of Rs. 5,766 as per details noted in the margin for 1922-23. ~~He however intimates that the actual contingent expenditure incurred for the year was only Rs. 1,661-8-0~~ The figures for 1925 as furnished by the Comptroller's

Establishment charges.	Rs.	10,928
Diet of patients.	"	5,000
Rations to poor contacts	"	750
Hospital necessaries.	"	1,500
Other charges. ...	"	1,250
Contingencies. ...	"	600
Total ...	Rs.	20,028

K in Mcl 35-19-18

Vin Mc 23-23-19

C A

810½ X 12 = 9,726 for Establishmt.
7,572 for Contings:
17,298 and
1/3 = 5,766 per annum for 1922-23.

Office were Rs. 7,600 for Establishment after keeping vacant appointments of some menial staff and about Rs. 6,500 for contingent charges. It will thus be seen that the total expenditure of the Hospital is not likely to fall short of one-third o Rs. 7,600 plus 6,500 or 14,100 = Rs. 4,700 a year. Against this, th Municipality have been providing onl Rs. 3,000 a year. The Municipality have been asked to adjust the amount already provided by them in the budgets pending consideration of their representation to permit them to pay only Rs. 3,000 a year.

I am to state in this connection that the Municipality will readily perceive that the maintenance of such a hospital with a proper staff and equipment and other necessaries in such an important City as Mysore is of paramount importance. The resolution of the Municipal Council passed in July 1920 to allow them payment of Rs. 3,000 only, on which much reliance is placed by the Council was duly considered in passing the order of June 1921 ~~and besides the Bangalore City Municipal Council have been paying without any complaint even half the charges~~. In these circumstances, Government fail to see how the Mysore City Municipal Council will be justified in asking -

OFFICE OF THE PRESIDENT,

CITY MUNICIPAL COUNCIL, MYSORE.

Dated 11th August *192* 6

FROM

N. MADHAVA RAU, ESQUIRE, B.A., B.L.,
President, City Municipal Council, Mysore.

The Secretary to the Government
of His Highness the Maharaja of Mysore,
Local and Legislative Departments,
Bangalore.

SIR,

Ml 23-23-21

With reference to your letter No.L 6486-Ml.23-23-20 dated 15th April 1926 regarding the extent of the liability of the Municipal Council in the matter of contribution towards the maintenance charges of the Epidemic Diseases Hospital at Mysore, I have the honour to state that the Health Committee to whom the the subject was referred by the Council for detail examination, consider that the scale of expenditure in the Hospital is disproportionate to the number of patients treated there and that as many of the patients are incurables, the quota of Rs.3,000/- already agreed to by the Municipality is sufficiently high and need not be enhanced.

The Council in their Resolution No.19 dated 24th July 1926 (copy enclosed) approve of the Health Committee's report and urge the need for reduction of establishment and the formation of a separate ward for treatment of incurables. I enclose herewith a copy of my letter No.888-89 dated 15th October 1925 to the Senior Surgeon dealing more in detail with the need for reduction in the annual expenditure on the hospital.

I request that the subject may again be placed before Government for consideration and Orders.

I have the honour to be,
Sir,
your most obedient servant,

PVR.

M. Madhava Rau

President.

(30 -

Letter No.888-889 dated 15th October 1925 from the President, City Municipal Council, Mysore, to the Senior Surgeon in Mysore, Bangalore.

I have the honour to state that the annual expenditure on the Epidemic Diseases Hospital in Mysore during the period from 1910-11 to 1918-19 when it was under the supervision of the Municipality, never exceeded Rs.4,000 of which Rs.1,500 on an average was met from Municipal funds.

In 1919--20 the institution was re-organised and transferred to the control of the Medical Department and since then, the annual expenditure has ranged from Rs.12,650 to Rs.18,000 of which a third is demanded as the contribution of the Municipality. The Municipal Council however has pleaded its inability to contribute more than Rs.3,000 per year and the orders of Government on this representation are awaited.

It does not appear that the large increase of expenditur on the institution due to its re-organisation has resulted in materially enhancing its usefulness. The statistics of the Hospital show that the daily average number of inpatients for the years 1921, 1922, 1923 and 1924 were 34.91, 22.37, 19.35 and 25.99 respectively. Even in times of epidemics the numbe of inpatients did not exceed the average figure of forty. I think it is obvious from these figures that the provision of 100 beds for the Hospital is excessive and that the scale of expenditure for the upkeep of the institution admits of considerable curtailment.

It is understood that the question is engaging your attention and it may not therefore be inopportune to bring to your notice a few points which seem to merit consideration in this connection.

i. The permanent staff of the institution may be reduced and kept at the strength required for 25 or 30 beds and provision made for the entertainment of temporary staff whenever required in times of epidemic.

(31

ii. A separate section of the Hospital may be constituted for the treatment of incurable diseases in order that the expenditure on this account might be clearly distinguished from the cost of medical relief for epidemic diseases.

No. G.C. 60-3.
Enc.

From

Dr. B. Mahomed Usmon, L.M.S.,
Senior Surgeon in Mysore, Bangalore.

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Medical and Agricultural Departments,
Bangalore.

Sir,

With reference to your letter No. G. 1036/Med. 27-26-2, dated 2nd August 1926, calling for my remarks on the articles headed "The Scrutiny of Expenditure" which had appeared in the Wealth of Mysore, dated 15th July 1926, I have the honour to state as follows:

The estimated expenditure of rupees 20,028 per annum fixed in Government Order No. G. 24949-52/Med. 35-19-18, dated 24th June 1921 includes the cost of the maximum establishment which was considered necessary in times of severe epidemics when the hospital would be expected to receive and treat a hundred patients. At such times promptitude in arranging for necessary medical relief is most essential, which will not be possible if, for the entertainment of each additional hand that may be required, sanction of Government will have to be applied for and obtained. It is this reason that had induced me to request Government in my letter No. G. C. 256-4, dated 22nd April 1925, that the present sanctioned strength of the establishment of the Epidemic Diseases Hospital at Mysore might be left undisturbed. (vide G.O.No. L. 3360-2/Ml. 23-23-19, dated 7th November 1925).

That the sanctioned establishment was not necessary during normal times had been realised by me long before the question of reducing the expenditure of the Epidemic Diseases Hospital at Mysore was taken up by the Municipal Council for consideration and, under my instructions, the then District Medical Officer, Mr. C. Appadorai Mudaliar, effected considerable savings by keeping vacancies in the

in the menial establishment of the hospital unfilled. Thus as many as ten places have remained vacant for nearly two years past with the ~~actual expenditure during~~ result that against Rs.20,028 the sanctioned expenditure, the actual expenditure during 1925-26 came to only Rs.12,290.

It is my intention to effect further reduction in the actual cost by removing the Head Nurse as there is no necessity for keeping her there, with practically no work. This will result in a further saving of Rs.(55-10-2½) or Rs.67½ per mensem or Rs.780/- per annum, and will bring down the actual expenditure to about Rs.11,500 per annum. It will thus be seen that every attempt is being made by me to reduce expenditure as far as possible, without sacrifice of efficiency and I need not assure Government that there will be no room for leakage or wastage as apprehended by Wealth of Mysore.

The contention of the Mysore City Municipal Council, that they cannot be called upon to pay more than Rs.3,000 per annum as their contribution, appears to be untenable. In times of severe epidemics, the Council ought to be prepared to bear their share of the extra expenditure which will be incurred by the department on the Epidemic Diseases Hospital. The only relief that could be reasonably claimed by the Council is that, the contribution payable by them be fixed at one-third of the actual expenditure incurred during each year, instead of one-third of the scale of expenditure sanctioned in the Government Order of 24th June 1921, which was only the estimated expenditure, in which all emergencies were expected to be covered. I therefore request that, in modification of the existing order, the contribution recoverable from the Mysore City Municipal Council on account of the Epidemic Diseases Hospital, be fixed at one-third of the actual cost.

I have the honour to be,
Sir,

REVENUE SECRETARIAT 2290 (3)

TO REV. SEC. 30 NOV. 1926

Sir

With reference to your D.O. letter No.L.3210, dated 15th November 1926, I have the honour to state that the subject matter of Government letter No.G.1036-Med.27-26-2, dated 2nd August 1926 and that of their letter No.L.1459-Ml.23-23-22, dated 26th August 1926 being the same, my letter No.GC. 60-3, dated 17th September 1926, submitted in reply to the former may kindly be taken to refer to the latter also.

As regards having a separate section for incurables in the Epidemic Diseases Hospital, Mysore, provision therefor has been included in the scheme for a new Epidemic Diseases Hospital, plans for which are under preparation.

I have the honour to be,
Sir,
Your most obedient servant,

Senior Surgeon.

N.B.—Should routine notes be written on small slips, the notes must be copied, or slips pasted on this form.

C 45345/wd 23-25-24

8/2nd Feb 27

The President, District Board,

Mysore

26

Sir,

I am directed to state that in G.O. No.24949-51/Medl.35-19-18 dated 24th/26th June 1921 the contribution payable by the Mysore City Municipality towards the maintenance charges of the Epidemic Diseases' Hospital at Mysore was fixed at one-third the total cost which was then estimated at Rs.20,028 providing for the treatment of about 60 patients. The Municipal Council have been contending that they cannot pay more than Rs.3000 as their annual contribution towards the cost of the institution and that the scale of establishment and expenditure of the Institution is much in excess of requirements and could be reduced. The annual cost has been reduced from Rs.17,298 in 1922-23 to Rs.12,290 in 1925-26 and the Senior Surgeon now states that both the further possible reduction in the establishment is possible & the total annual cost of the institution can be brought down to Rs.11,500.

Under this, the contribution which the Municipal Council will have to pay will amount to Rs.3,833 i.e., Rs.833 in excess of what they are willing to pay. As the institution benefits the residents in the rural parts of the Districts as well, Govt. consider that this may as well be borne by the District Board.

I am therefore to request you to be so

39

as to ascertain if the Board v report

issue in regard to the extent of the l
bilities of the Mysore City Municipa
Council to contribute towards the -
maintenance charges of the Epidemic
Disease Hospital at Mysore.

2 Correspondence ending with letter (1) No.214 dated the 11th August 1926 from the President, City Municipal Council, Mysore; (2) letter No.G.C. 106 dated 29-11-26 from the Senior Surgeon with the Government of Mysore and (3) letter No. C.1367 dated 24-3-1927 from the President District Board, Mysore on the above subject.

ORDER NO. G 11570-2 & 2.5.27

Dated: Bangalore,

Under the existing orders of Government, the Mysore City Municipality is required to meet one -thi of the total recurring expenditure of the Epidemic Disease Hospital at Mysore which according to the sanctione scale comes to Rs. 20,028/- per annum.

The Mysore City Municipal Council object to contribute one -

ORM(5) 2/5

(44)

one-third of this expenditure according to this scale on the ground that it is capable of curtailment and that the charge they are called upon to bear is out of proportion to the benefit they derive from the Hospital. They state that they can give only a fixed contribution of Rs. 3,000/ per annum for the hospital. The Municipal Council urge also the need for the formation of a separate ward for the treatment of incurables. The Senior Surgeon agrees that the expenditure on the hospital is capable of curtailment and states that the actual expenditure can be brought down to about Rs.11,500/-.per annum and that he has certain retrenchments in view. He also states that there is provision for a separate ward for incurables, ~~in the~~ in the scheme for a new Epidemic Disease Hospital at Mysore, plans for which are under preparation.

Government observe that under existing orders the Bangalore City Municipality is meeting one half of the expenditure on the Hospital at Bangalore and see no reason why the Mysore Municipality should object to pay one-third of the expenditure on the Epidemic Disease Hospital in that city. The expenditure however for calculating the Municipal Council's share will be the actual amount spent for the maintenance of the hospital.

ORDER NO.G.11570-2/MED.27-26-33 DATED 2ND MAY 1927.

Under the existing orders of Government, the Mysore City Municipality is required to meet one-third of the total recurring expenditure of Epidemic Diseases Hospital at Mysore which according to the sanctioned scale comes to Rs.20,028 per annum.

2. The Mysore City Municipal Council object to contribute one-third of the expenditure according to this scale on the ground that it is capable of curtailment and that the charge they are called upon to bear is out of proportion to the benefit the city derives from the Hospital. They state that they can give only a fixed contribution of Rs.3,000 per annum for the hospital. The Municipal Council urge also the need for the formation of a separate ward for the treatment of incurables. The Senior Surgeon agrees that the expenditure on the hospital is capable of curtailment and states that the actual expenditure can be brought down to about Rs.11,500 per annum and that he has certain retrenchments in view. He also states that there is provision for a separate ward for incurables in the scheme for a new Epidemic Diseases Hospital at Mysore, for which plans are under preparation.

3. Government observe that under existing orders the Bangalore City Municipality is meeting one-half of the expenditure on the Hospital at Bangalore and see no reason why the Mysore Municipality should object to pay one-third of the

expenditure on the Epidemic Diseases Hospital in that City. The expenditure however for calculating the Municipal Council's share will be the actual amount spent for the maintenance of the hospital.

4. The Senior Surgeon is requested to keep down the maintenance cost of the institution as far as possible and submit for the orders of the Government, proposals for introducing a revised scale of expenditure providing, among other things, for the establishment of a separate ward for the treatment of incurables.

B. NAGAPPA,
Secretary to Government,
